#### **DETAILED ACTION**

## Response to Arguments

Applicant's arguments, see pages 8 and 9, filed March 20, 2006, with respect to the rejection(s) of claim(s) 24-34 under 35 USC 102 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Martinez et al (US 3,863,176).

### Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 24 and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Martinez et al (US 3,863,176).

Regarding claim 24,

Figure 2 illustrates a chemical laser having a feed cartridge (not shown)
[applicant's fuel supply system], having a laser cavity (31) [applicant's laser generator],
having mirrors (33), (34) [applicant's optics module], where the laser receives from the
feed cartridge gases [applicant's gaseous fuel] and solids [applicant's solid fuel] as
described in column 2 lines 54-60. Column 4 lines 5-7, discloses the generation of
exhaust gases [applicant's waste products].

Regarding claim 25,

Application/Control Number: 10/633,072 Page 3

Figure 2 illustrates an exhaust passage (41) [applicant's sealed exhaust].

## Allowable Subject Matter

Claims 1-23, 26-34 are allowed.

None of the cited prior arts alone or in combination discloses the claimed chemical laser having the recited limitations of independent claims 1,14, 19,26 and 34, in particular processing the solid and gaseous waste to replenish or regenerate the solid and gaseous fuel for the laser.
